Education

University of Toronto Toronto, ON, CA

BSc. Computer Science, Minor in Geographic Information Systems and Statistics *Sept. 2025 – Present*

- UTSC Sports Business Association Education/Web Coordinator 2025-26
- Muslims in Healthcare Activities Director 2026
- UTSC Soccer Interhouse Winner W26, S26

Experience

IT Student Helpdesk Representative August 2026 – Present

UTSC Information and Instructional Technology Services *Toronto, ON, CA*

- Provided Tier 1 technical support to students, faculty, and staff, troubleshooting hardware, software, account, and connectivity issues.
- Triaged and resolved IT service requests across campus, escalating complex technical issues to appropriate support teams when necessary.
- Assisted with the maintenance and configuration of campus computing equipment while following IT policies, procedures, and security standards.

Web Designer June 2026 – August 2026

Muslim Welfare Canada *Toronto, ON, CA*

- Designed and maintained website layouts, pages, and templates
- Created visual design assets for social media, marketing, and fundraising campaigns
- Ensured consistent branding and visual standards across the website and all digital platforms
- Collaborated with front-end developers and internal teams on a website overhaul built in ReactJS
- Built, organized, and maintained a structured NAS server for the organization

Projects

Personal Portfolio | *React, Next.js, TypeScript, Tailwind CSS, Vercel, Git* Apr. 2026 - Present

- Developed my front-end skills by building a personal web portfolio built using React and Next.js
- Developed separate web components to create an organized layout for my website
- Combined various tools to create a smooth, user-friendly, animated experience

Lichess Dashboard | *Python, HTML, JS, CSS, Django, requests, json, Vercel, Git* Apr. 2026 - May 2026

- Django web dashboard which displays chess player information
- Retrieved and parsed JSON from Lichess API using the requests and json libraries
- Applied UI/UX organisation and frontend development skills
- Continuously updated repo and deployed via Vercel

Interactive public transit maps | *HTML/CSS/JS, Adobe Illustrator, QGIS, PostgreSQL* Aug. 2025 - Apr. 2026

- Combined vector graphics, JavaScript, and web deployment to create functional transit maps of Toronto and Algiers
- Collected and mapped data using QGIS and PostgreSQL
- Documented my project progression on my portfolio

Housing Density Analysis | *QGIS, ArcGIS Online, PostgreSQL, Microsoft Office* Oct. 2025 - Nov. 2025

- Mapped transit, housing, and land use data across a Toronto dissemination area to answer whether or not housing density in this area was uniform
- Used SQL to find useful data for my report
- Mapped using QGIS and ArcGIS Online, and wrote a report on my results

FBRef Stats | *Python, requests, pandas, BS4, OOP, Matplotlib* 2024 - 2025

- Python web scraping library which returns soccer statistics from the internet using BeautifulSoup4 and requests
- Visualized collected data using Matplotlib

Technical Skills

Competencies: Data Analysis/Visualization, Web Development, Project hosting and deployment, Geographic Information Systems, Office Suites, Graphic Design
Programming Languages: Python, C, HTML/CSS/JavaScript, TypeScript, Unity C#, PostgreSQL
Web Frameworks/Tools: Django, React, Next.js, Tailwind CSS, Framer Motion
Developer Tools: Git, VS Code, Visual Studio, Unity, Google Workspace, Microsoft Office Suite, QGIS, ArcGIS Pro, Adobe Illustrator, Canva
Python Libraries: requests, json, BeautifulSoup4, pandas, Matplotlib

Certifications

- Python for Everybody, Python Data Structures | **University of Michigan**
- Application Integration Essentials | **IBM**
- Introduction to GIS Mapping | **University of Toronto**
- Healthy Urban Systems - Concepts and observations | **University of Lausanne**
- DELF B2 | **France Éducation International**
